Standard Operating Procedure (SoP) for Student Mentoring System

Introduction:

The Bachelor of Architecture program is often considered one of the most rigorous programs in the world, and students need guidance and counseling at different stages of their path. Students face challenges on multiple levels, such as emotional, familial, and intellectual. It can be difficult for children to adjust to their new surroundings and responsibilities because many of them are leaving home for the first time. Therefore, in order to enhance their performance and maximize their time in college, it is essential that they receive some guidance or support. For the same reason, Bharati Vidyapeeth College of Architecture in Navi Mumbai offers a student mentorship program.

This system's primary goal is to give students an effective and all-encompassing community of support so they can succeed in both academic and extracurricular pursuits. Additionally, it was discovered that this technique will assist students in developing self-discipline, punctuality, and confidence, all of which will eventually aid them in developing their careers.

The goal of the mentor-mentee program at BVCOA is to help the students and foster an engaging, healthy learning environment. Additionally, the program facilitates the development of positive relationships between mentees and mentors.

The objectives, roles, and responsibilities of the mentor and mentee are described in the following SoP.

Objectives:

- To establish a trustworthy and responsible relationship between the mentors and the mentee.
- To improvise the academic and personal development of the mentees through personalized guidance and support.
- To provide mentors with an opportunity to develop mentoring skills.
- To help students face academic challenges as well as personal level.
- To provide the students with a healthy, conducive and encouraging learning environment.
- To extend support for the overall development of the student.
- To help them realize and reach their maximum potential.

Programme Structure:

In Bharati Vidyapeeth College of Architecture, Navi Mumbai, two faculty members are assigned to each class of First Year to Fifth year as mentors.

- The Head of Department identifies the Class Coordinators and appoints them as **Mentors in the Ratio of 1:20**. Being a class coordinator themselves, it is easier for the mentor to maintain the records of the respective students and also to keep a check on their progress.
- **Each class has a capacity of 40 students; hence each Mentor is assigned with 20 students each from his/her class.**
- Mentors and mentees pre-decide the meetings and meet accordingly.
- The meetings are conducted once a month.

Responsibilities of Mentors:

- To monitor students regularly.
- To increase and improve interaction between faculty and students.
- To inform parents about the performance of their wards.
- To counsel students for solving their problems and give them confidence.
- Counsel the mentees regarding the choice of electives, their academic projects, external resources, internships, job prospects, master's courses and other co-curricular activities to enhance their skill set.

Responsibilities of Mentee:

- To share the correct details of their parents.
- To be punctual for meetings with the mentors.
- To share their ideas and concerns with the mentor, the mentor understands the mentee in a better way and helps them to find solutions.
- To be receptive to the mentor's advice, suggestions and counselling.
- To be open to discussing academic as well as personal concerns with the mentor.

The regular practice faculty at BVCOA follow under Student mentoring system is:

- The attendance and Performance review is prepared at the end of every month, and it is shared with all Students and Parents.
- Along with monthly review, we arrange Parent Teachers to meet once a Semester to inform parents about performances of their respective wards.
- In case of poor attendance or non-performance of students, we inform their parents and ask them to meet the concerned Mentor and the Principal. After the discussion with parents, we implemented corrective measures to improve the students' performance.
- We arrange remedial studios to improve academic performance of the students.
- We try to connect with the students on different platforms to create a strong bond between faculties and students.
- We conduct regular meetings with the principal to review attendance and performance of the students.

After implementing this Student Mentoring System, we found improvement in the attendance and performance of some of the critical students. There was improvement in Student teacher interaction as well. Overall, this system proved beneficial for students and for the Institute as well.

Outcomes of the Mentor-Mentee meeting:

1. Increased Confidence: Mentees felt more confident about managing their academic workload and career planning due to the guidance provided by their mentors.
2. Improved Communication: The meeting fostered better communication between students and faculty, allowing students to express their concerns freely.
3. Action Plans for Improvement: Personalized study plans were created for academically weak students, and additional academic support, such as remedial classes or peer tutoring, was suggested.
4. Emotional Support: Students expressed feeling more emotionally supported, knowing that they had access to both academic and emotional guidance.
5. Career Planning: Clearer career goals were established for mentees, and action steps were discussed to achieve those goals, including further studies, internships, and job searches.
6. Holistic Development: Students were motivated to engage in activities that would help with their overall personal and professional development, beyond just academics.

Date: 15/07/2024

NOTICE

This is to inform all faculty members that mentees have been allotted to them as mentors for the Academic Year 2024–25 as per the list attached with this notice. Faculty members are requested to take note of their respective mentees and initiate the mentoring process at the earliest.

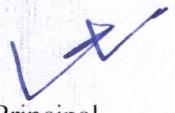

Responsibilities of Mentors:

- To consistently track the academic progress of mentees through structured attendance monitoring and performance assessment.
- To hold monthly mentor–mentee meetings and systematically record students' academic progress in the prescribed format.
- To promote and strengthen constructive engagement and interaction between faculty members and students.
- In instances of poor attendance or unsatisfactory academic performance, mentors shall notify parents and arrange a meeting with the Principal. Based on the discussion, suitable corrective actions shall be planned and implemented to improve the mentee's academic performance.
- To support and coordinate remedial measures aimed at enhancing students' academic achievement.
- To maintain effective communication with students in order to build a strong and supportive faculty–student relationship.
- To participate in periodic review meetings with the Principal to discuss student attendance and academic performance.
- To offer counseling and guidance to students to help them address academic or personal challenges and to build self-confidence.
- To guide mentees in making informed decisions regarding elective selection, academic projects, external learning opportunities, internships, career pathways, higher education options, and co-curricular activities that support skill and competency development.

Date :

Agenda Points

Problems/Issues/Suggestions Discussed	Action Taken
Challenges in time management, especially balancing studio work with theory subjects and submissions.	Helping students develop a structured design process and maintaining a design journal.
Difficulty in developing strong design concepts.	Conducting one-on-one concept discussions to help the student articulate ideas verbally before designing.
Translating ideas into clear architectural drawings and models.	Encouraged the use of concept diagrams, bubble diagrams, and rough sketches to clarify initial thoughts.

Date

Belpada Complex, Opp. Kharghar Rly. Station,
Sec. 7, C. B. D. Belapur, Navi Mumbai- 400 614 - India

Agenda Points

Problems/Issues/Suggestions Discussed	Action Taken
Need for better understanding of site analysis, zoning regulations, and contextual response in design projects.	Helped the student with analytical skills and identify a clear design intent or central idea for each project. Suggested maintaining a design journal/sketchbook for recording ideas and inspirations.
Struggle with design critiques and incorporating feedback effectively in subsequent iterations.	Regular design reviews with mentors to improve conceptual clarity.
Limited proficiency in architectural software such as AutoCAD, SketchUp, Revit, Lumion, or Photoshop.	Practicing software skills alongside studio projects rather than separately.

Date

Belpada Complex, Opp. Kharghar Rly. Station,
Sec. 7, C. B. D. Belapur, Navi Mumbai - 400 614 - India

Agenda Points	
Problems/Issues/Suggestions Discussed	Action Taken
Stress due to tight deadlines, long studio hours, and multiple submissions.	Planning work schedules in advance to reduce last-minute stress.
Inability to plan studio work efficiently across the semester.	Conducted regular progress reviews to monitor adherence to the planned schedule.
Difficulty integrating services (lighting, ventilation, circulation) into design.	Reviewed drawings to ensure services were functionally and logically incorporated into the design.

Date:

Agenda Points	
Problems/Issues/Suggestions Discussed	Action Taken
Lacks confidence or speed in architectural software, affecting presentation quality.	The mentor identified specific software gaps & students were encouraged to complete beginner/intermediate tutorials.
Struggling to integrate structural systems and construction logic into design.	Student asked to study case examples and structural diagrams. Coordination with structures/construction faculty suggested.

Date

Agenda Points

Problems/Issues/Suggestions Discussed	Action Taken
Students are struggling with scale models, material selection, or workmanship.	Students advised to practice with small test models. Time management for model making discussed.
Student's design does not adequately respond to site conditions, climate, or context.	Student instructed to redo site analysis diagrams & emphasis placed on linking analysis directly to design decisions.
Irregular attendance and limited participation in studio discussions.	Mentor discussed importance of studio culture and peer learning & Follow-up planned to monitor improvement.
